

WETS DEFEAT COUNTY OPTION BILL; DRYS PASS RESIDENCE DISTRICT BILL

COOK COUNTY WETS DECLARE LATTER TO BE MORE HARMFUL TO THEM THAN COUNTY OPTION MEASURE

Result of Day's Fight Shows That Drys Passed Two of Their Bills, and Prevented Repeal of Township Local Option Law ---Wets Lost Both Their Bills But Succeeded in Defeating County Option.

SPRINGFIELD, JUNE 4.—Wets and drys divided honors in the house of representatives today. The wets defeated the passage of the county option bill which in former sessions has been the all important measure of the drys, but the drys succeeded in passing their residence district bill, which the Cook county wets declare is more harmful to them than county option. The wet and dry fight which was a special order for today, continued throughout the morning and afternoon sessions the latter not ending until 7:30 o'clock tonight. The net result of the day's battle, shows that the drys succeeded in passing two of their bills, that two others were defeated and that they prevented the repeal of the present township local option law. The wets lost both of their bills which they put forward but consolation in the fact that they succeeded in defeating county option.

Vote On Dry Bills.
H. B. 808—County option—defeated 65 ayes to 77 nays.
H. B. 273—Residence district—passed 77 ayes to 69 nays.
H. B. 215—University bill—passed 90 ayes to 52 nays.
Prohibits the sale of intoxicating liquor within four miles of the University of Illinois.
H. B. 431—Anti-shipping—defeated, 69 ayes to 73 nays.
Intended to prevent shipment of intoxicating liquors into dry territory except for lawful purposes.
The vote on the wet bills was as follows:

H. B. 247—Repealing the township local option law—defeated 55 ayes to 83 nays.
H. B. 721—Licensing the sale of intoxicants on buffets and dining cars—defeated 51 ayes to 82 nays.
Had No Hope of Passing Bill.
The vote on the county option bill came last. When Chairman G. H. Wilson of the dry committee, who had conducted the fight on the floor for the dry bills and against the wet measures, attempted to explain the provisions of the county option bill, cries of "roll call" greeted him from all sides of the hall.

"Let's vote then," responded Representative Wilson and the clerk began the call of the roll.

The drys said they had little hopes of passing the county option bill but insist that they won a great victory in the passage of the residence district bill.

The vote on the county option bill was as follows:

Affirmative.

Those voting in the affirmative, were: Messrs. Abbott, Atwood, Baker, Barker, Barron, Bell, Benson, Boyd, Burres, Campbell, Carmon, Carter, Coleman, J. M. Curran, Dunn, R. A. Elliott, W. B. Elliott, Etherston, Fargy, Finley, Fitch, Flagg, Fleming, H. A. Foster, Groves, Grunau, Hartquist, Hollenbeck, Hollister, Hubbard, Hunt, Huston, Jayne, Jones, Kane, Kasserman, King, Kirkpatrick, Lovejoy, Lyon, E. E. Miller, G. A. Miller, Munroe, Provine, Poorman, Rapp, Richardson, Shaver, F. W. Shepard, Sherman, Simpson, Strubinger, S. C. Thompson, R. R. Thompson, Tice, Tucker, Watson, Wertz, Williamson, G. H. Wilson, Wood. Total 65.

Negative.

Those voting in the negative, were: Messrs. Blaha, Boyer, Briscoe, Browne, Burns, Butts, Clarke, Clyne, Cohlmeier, Costello, Crawford, Thomas Curran, Devine, Dillon, Donlan, Dudgeon, Dugan, Fahy, Farrell, A. M. Foster, Gorman, Graham, Griffin, Hiltun, Hoffman, Holaday, Hruby, Hutchinson, Karch, Keck, Kilene, Kleeman, Koch, Lloyd, McCarty, W. W. Sheppard, Shurtleff, Smejkal, Smith, Snite, Stocklasa, Sullivan, Taylor, Trimarco, Walsh, Weber, R. E. Wilson, Zolla and Mr. Speaker.

Representative F. E. J. Lloyd of Chicago, Progressive, a clergyman, voted against the residence district bill. In explaining his vote he declared he was more a man than a clergyman and said he would rather see Illinois free than sober.

Representative Lloyd recalled a sermon he once preached at Uniontown, Pa., in which he said he believed a saloonkeeper had as much chance to enter the kingdom of heaven as anyone.

He told of threats made against him by dry leaders who repeatedly said to him, "We stand by those who stand by us." When Lloyd asked if that was threat, he said, the same reply was made.

Today Lloyd said a dry representative came back saying to him, "I came back a last time to discuss your attitude. I have received your record in Pennsylvania and Ohio." These things Lloyd declared made him indignant and he answered that his record was open to all men.

"I have always been on the side of warm hearted good fellows," continued the former clergyman legislator. "I have sat with my friends and drank a glass of beer and will do it again," he said.

"I am here to serve my independence and manhood. I have done more in thirty years to rescue drunkards than most men, but I would rather see Illinois free than sober." The residence district bill was declared by the wets, "the worst thing that possibly could happen to Chicago." Under it the city can be gerrymandered one block at a time into dry territory. When a block becomes dry, under the bill, its features are so drastic that a resident in the block cannot even give an order from his house, nor can any delivery of intoxicants be made within the block. It is said that the district bill is far more severe than either the search and seizure bill or the county option measure.

The drys declared that the residence district bill is the only one of the dozen dry measures that will pass the house.

Gets Bill on Calendar.

Senator Hearn made a fight this morning and got his bill (S. B. 607), making a \$6,000 appropriation for strengthening the Illinois river levee at Naples, on the calendar after the appropriations committee had recommended the tabling of the measure.

Public Utility Bill.

that district until the voters of that identical territory vote to discontinue such district. This vote cannot be taken for at least three years after the vote creating the same. In other words the bills would take the residence saloon out of city politics and make it possible for a majority of the voters residing in any residence territory to say by their secret vote whether or not saloons shall be licensed at or near their homes.

The measure received 77 affirmative votes, a bare constitutional majority, while 69 votes were cast against it.

Representative Explains Vote.

Representative F. E. J. Lloyd of Chicago, Progressive, a clergyman, voted against the residence district bill. In explaining his vote he declared he was more a man than a clergyman and said he would rather see Illinois free than sober.

Representative Lloyd recalled a sermon he once preached at Uniontown, Pa., in which he said he believed a saloonkeeper had as much chance to enter the kingdom of heaven as anyone.

He told of threats made against him by dry leaders who repeatedly said to him, "We stand by those who stand by us." When Lloyd asked if that was threat, he said, the same reply was made.

Gets Bill on Calendar.

Senator Hearn made a fight this morning and got his bill (S. B. 607), making a \$6,000 appropriation for strengthening the Illinois river levee at Naples, on the calendar after the appropriations committee had recommended the tabling of the measure.

Public Utility Bill.

The administration public utility bill came into the house at the afternoon session to day in the form of a committee bill. It was reported by Chairman Rapp as the bill of the house public utility committee.

The committee bill was read a first time and advanced to second reading. Home rule feature is omitted from the committee bill that section of the preliminary draft of the committee bill having been stricken out in the committee at a meeting held immediately following the noon recess of the house to day. Under the bill in its present form there will be but one commission for the whole state. A prolonged discussion developed in the senate to day over Senator Magill's county uniformity and maximum price text book bill. Before the battle ended the county uniformity feature had been stricken out and the senate had rejected two sub-bills providing for uniformity and maximum prices. Even then the bill was not advanced to third reading but on motion of Senator Barr, further consideration was postponed. The bill now provides that text books shall be sold in Illinois at a price as cheap as the same books are sold in any other state in the union.

Title to Board of Trustees.

Favorable action was taken to day by the senate corporation committee on a bill vesting title to church property in the board of trustees instead of the bishop.

The bill appropriating \$2,225,000 per annum for the University of Illinois, being the amount raised under the one mill tax act was called up in the senate this afternoon and, after a heated discussion, was made a special order for tomorrow.

Objection to the bill was raised on account of the college of physicians and surgeons being included in the beneficiaries.

Senator Tossey offered an amendment providing that none of the funds should be used for the medical school. This amendment was pending when further consideration was postponed.

In the senate the bill providing that any candidate for vice-president may have his name printed on the primary ballot was recalled to second reading and a section added incorporating a provision for a voting on delegates at large where congressmen at large are to be elected and then returned to third reading.

Stand for Hull Amendment.

In conference tonight the Republicans members of the house of representatives decided to stand pat for the Hull amendment to the initiative and referendum resolution recently defeated by one vote and which is the primary ballot by another vote to day.

Of the 52 Republican members of the house 32 were present in person and agreed to abide by the conference action. Some of those who were not present agreed in advance to support the action of the conference. The Hull amendment provides for a majority of all those voting at the election instead of a majority of those voting on the proposition. It is unlikely that the state administration assent to such a compromise. The initiative and referendum comes up for another vote to day on a special order. Efforts will be made to get a vote on the resolution not later than noon it being contended that in the previous long drawn out fight, lasting until after midnight, that some members who would have voted for the resolution became tired and left before the roll was called.

INCOME TAX SECTION WILL BE AMENDED TO REMEDY DEFECT

Defect is Discovered in This Section Which Would Make the Measure Unconstitutional.

Washington, June 4.—Before the senate acts on the Underwood tariff bill the income tax section will be amended to remedy a defect which it was discovered today would make the measure unconstitutional. When the framers of the income tax provision fixed January 1, 1913, as the date from which to compute incomes for taxation they overlooked the fact that the constitutional amendment authorizing an income tax was not proclaimed as ratified until Feb. 25, 1913.

This fact was brought to the attention of the senate finance subcommittee which has the income under consideration and an amendment probably will be drafted at once.

Aside from the constitutional defect arguments have been presented in favor of making the tax income accrue for the first year from July 1 or later. As far as the constitutional limitation is concerned it would be legal to compute incomes for 1913 from March 1.

TRUSTY QUITS WORK.

Joliet, Ill., June 4.—Frank Russell, a trusty at the penitentiary, escaped from that institution this noon. He was working in the prison garden without guard and laid down his hoe and disappeared.

A posse under Deputy Warden Sims is searching for him.

Peoria, June 4.—Seven Industrial Workers of the World who went on a "hunger strike" in the city jail here and broke up the dishes which were given them, were fined \$200 and costs by a jury in the city police court and sent to the workhouse for six months each.

The prisoners told the police that two more gangs were headed for Peoria. They have abandoned the hunger strike.

ORDER RESTORED IN MATAMORAS

DEFENSES BEING RECONSTRUCTED FOR COMING BATTLE WITH FEDERALS

Government Troops are Reported Coming From Vera Cruz—Torch Will Be Applied to Huge Pyre of Bodies This Morning.

BROWNSVILLE, TEXAS, JUNE 4.—Matamoras, Mexico, which surrendered to the rebel army of General Blanco early to day, is orderly tonight. All saloons have been closed and revolutionists not engaged in caring for the wounded and gathering the dead are hastily reconstructing the battered defenses in anticipation of the coming of government troops reported enroute from Vera Cruz. Up to a late hour tonight forty bodies have been collected and assembled in a huge pyre. The torch will be applied tomorrow morning.

Rumors were current to day that a body of federal troops were approaching Matamoras from the west. The newcomers, however, proved to be a belated band of revolutionists on their way to join Blanco's army. It was stated late tonight that the bodies of about 100 dead of the two armies had been located after an exploration of practically the entire battlefield. The number of wounded is placed at fifty.

Offer Consul Armed Guard.

Eagle Pass, Texas, June 4.—An armed guard of four men to protect American consulate at Pedras Negras was tendered United States Consul Luther Ellsworth to day by the chief of police of that place acting under instructions of Governor Carranza and the consul accepted two sentries who will be on duty until peace is restored. It is now believed boys at play threw the stones Friday night which gave rise to the report that the consul had been stoned.

Calls For Enlistment.

Douglas, Ariz., June 4.—General Pedro Ojeda, commanding the federal forces at Guaymas and acting as military governor of Sonora, to day issued an edict calling for enlistment in arms of all men between the ages of 16 and 70. He also ordered an enforcement of the order that no persons be allowed to leave Guaymas without passports signed by him. The passport ruling applies to foreigners as well as natives.

Will Rescue Americans.

Mexico City, June 4.—More than 150 Americans whose financial condition renders it impossible for them to pay their way to the United States will be sent from her to Galveston by way of Vera Cruz tomorrow as the result of representations made by the American ambassadors to the administration at Washington. The Steamer La Mexicana has been chartered for the purpose and Red Cross funds employed.

Most of the Americans reside in Mexico City, the others are from points in interior some of refugees from regions overrun by rebels. They are not of the indigent class but employees of concerns which disturbed condition made necessary to close down. There are a number of women in the party. The American consul at Tampico has already shipped more than one hundred Americans from that town.

Mexico City, June 4.—The minister of foreign affairs has sent a note of protest to Washington against the anti-alien law recently passed by the state of Arizona.

It is reported that at least three resignations in the cabinet will be presented before the end of the week.

JOHNSON GETS ONE YEAR AND \$1,000 FINE

RECEIVES SENTENCE FOR VIOLATION OF MANN "WHITE SLAVE" ACT

Owing to the Crowded Condition of Federal Penitentiary at Leavenworth, Johnson is Sentenced to State Prison—Obtains Two Weeks Time to Prepare Writ of Error.

CHICAGO, JUNE 4.—Jack Johnson, the negro heavy-weight champion, today was sentenced to one year and one day in the state penitentiary at Joliet and fined \$1,000 for violation of the Mann "white slave" act.

Sentence was pronounced on Johnson after Federal Judge Carpenter had denied a motion for a new trial made by counsel for the negro. Johnson obtained two weeks' time in which to prepare a writ of error and the bond for \$30,000 on which he has been at liberty since his conviction, was allowed to stand.

Half a dozen deputy United States marshals, who had grouped themselves about Johnson in anticipation of resistance when the prison sentence was given, left the room when Judge Carpenter announced that the fighter could continue temporarily at liberty.

The sentence to the state penitentiary is the result of a recent order from Washington that all persons convicted in the federal court in this district should be sent to the state prison, owing to the crowded condition of the federal penitentiary at Leavenworth, Kan.

Will Not Give up Fight.

Johnson left the court room declaring that he would not give up his fight for liberty and that if the writ of error were denied, he would make further appeals.

The arguments for a new trial came up as a surprise late this afternoon. The case had not been set previously and the proceedings began with the unexpected appearance in the court room of Johnson and his lawyer.

"It has been hard to determine what punishment should be meted out in this case," Judge Carpenter said in passing sentence. "We have had many cases where violations of the Mann act have been punished with a fine only. We have had other cases where defendants have been sentenced to one or two years in the penitentiary."

"The circumstances in this case have been aggravating. The life of the defendant by his own admissions, has not been a moral one. The defendant is one of the best known men of his race and his example has been far reaching. The sentence shall be that the defendant shall be confined a year and a day in the Joliet penitentiary and that he shall be fined \$1,000."

The court denied a request of counsel for Johnson that the negro be allowed to serve the term in the city Bridwell instead of the state's prison.

Johnson was convicted May 19 of having paid for the transportation of Belle Schreiber from Pittsburgh to Chicago.

WOMAN HELD TO GRAND JURY ON MURDER CHARGE

Husband is Shot Down at Doorway of Her Apartment—Claims She Thought He Was a Burglar.

Chicago, June 4.—Mrs. Louise Van Keuren was held to the grand jury on a charge of murder in connection with the fatal shooting of her husband, John B. Van Keuren, at the doorway of her apartment today. George Penrose, who admitted he had visited Mrs. Van Keuren's home shortly before the shooting, was held as accessory. Mrs. Van Keuren told the coroner's jury she had fired her revolver when some one broke the glass window over the door at entrance of her home. She said she believed it was a burglar. The bullet penetrated her husband's brain.

Private detectives who had been in the employment of Van Keuren testified at the inquest that Penrose, a lawyer, had come to Mrs. Van Keuren's home with her immediately after he closed his store. Detectives then telephoned Van Keuren, Harry Van Keuren, brother of the dead man, at whose home he had been living, testified that his brother had left home after receiving a message from the detectives.

BRYAN RECEIVES JAPAN'S REJOINER

MESSAGE SETS OUT ATTITUDE OF TOKIO GOVERNMENT

General Tone is to Invite Further Discussion—Contains Nothing Tending to Make Up a Final Issue—No Details Made Public.

WASHINGTON, JUNE 4.—Japan's rejoinder to the United States' reply to her protest against the California anti-alien land law, delivered personally by Ambassador China to Secretary Bryan late today sets out why the Tokio government continues to regard the Webb law as discriminatory against Japanese in derogation of the equalities of treatment prescribed by international law and a violation of the treaty of 1911.

Nothing in the nature of an ultimatum is contained in the note. Its general tone is to invite further discussion of the controverted points and it contains nothing tending to make up a final issue. Secretary Bryan and the ambassador agreed that no details should be made public.

The Japanese note was very long and its nature entirely argumentative. Secretary Bryan and Ambassador China were in accord that no good purpose could be served at this time by a public discussion of the delicate question and, therefore both officials gave notice that any attempt to publish what might purport to be even the substance of the three communications which have now passed between the two governments must be based entirely upon speculation. It is known, however, that the whole tone of the rejoinder today is that of a dignified and orderly presentation of Japan's view of the case, concluding with an invitation to further negotiations.

Held Informal Discussion.

Ambassador China went to the state department by appointment just before four o'clock. Instead of merely acknowledging receipt of the note and promising to consider it, Secretary Bryan requested the ambassador to wait while he read the communication and when he had finished there was an informal discussion.

Secretary Bryan was deeply interested in the points made in the Japanese rejoinder which are believed to have been directed more to the end of demonstrating that the legislation of the California law, taken in connection with the recent action of the Arizona legislature and the projected legislation in other western states, tend to impair the equality of treatment to which Japanese were entitled under the general principles of international law, than to the charge that the Webb act constituted a technical violation of the treaty of 1911, between America and Japan.

The ambassador was at the department for an hour and a half. Then he returned to the embassy to prepare a report to his government indicating the nature of the reception of its communication by the secretary of state.

Secretary Bryan went directly to the white house, where he left the Japanese note for the president's consideration of President Wilson. It is expected that when Consul Moore returns to Washington tomorrow from New York he will be called into conference by the president and Secretary Bryan to consider the outline of a response.

COMMITTEE PROBES SUGAR TARIFF FIGHT

Senator Ransdell of Louisiana is Chief Witness Before Committee

PRY INTO EVERY PHASE

Lobby Investigating Committee Pry Into Fight Between Free Trade and Anti-Free Sugarites

BOTH SIDES WELL ORGANIZED

WASHINGTON, JUNE 4.—Ratifications of the sugar tariff fight being conducted outside the halls of congress gave the senate "lobby investigating committee" a busy two hours late this afternoon. With Senator Ransdell of Louisiana as the chief witness, members of the investigating committee pried into every phase of the fight between the free trade and the anti-free sugar forces and established the fact that general offices are maintained by both factions and that a systematic and organized fight has been carried on for and against the free sugar provision endorsed by President Wilson.

The activity of the sugar tariff forces was partially responsible for President Wilson's statement that powerful lobbying influences are at work in Washington to effect changes in the tariff bill.

Senator Ransdell discussed freely the organized activity of the Louisiana sugar cane growers, but believed little money had been spent as compared with the amount spent by Claus Spreckels, of the Federal Sugar Refining company, and Frank C. Lowrey of New York, said to be an employee of that company, in the attempt to create a public sentiment in favor of free sugar.

Did Not Organize in Time.

"I urged the Louisiana people to organize two years ago and combat this false sentiment that was being created in favor of free sugar," he said, "but they did not act in time."

Some light was thrown on the activity of Hawaiian and Porto Rican growers, who also oppose free sugar, by the senator. He denied there had been any concerted action amongst the three forces and said the Louisiana growers had devoted their efforts to distributing literature and presenting arguments to show that free sugar meant destruction to the business and no benefit to the consumer.

Senator Ransdell named several leading figures in the anti-free sugar fight. The investigating committee will finish the testimony of senators tomorrow and then will begin hearing outsiders whose names have been mentioned during the inquiry and who the committee have been given to understand should know some of the facts being sought.

Know of No "Lobby."

At the night session Senators Shepherd of Texas, Sterling of South Dakota, Salisbury of Delaware, Stone of Missouri, Swanson of Virginia and Lewis of Illinois also testified, all denying knowledge of any "insidious lobby." Senator Lewis said he had, when elected to the senate resigned as counselor and director of the North American Trading and Transfer company and authorized the sale of his stock. He also declared that he had committed himself to the people in favor of the tariff bill and committed himself to the people in favor of the tariff bill

The groom is the son of Mrs. James Hopper of Sinclair. He is well known here and in the northern part of the county and is the proprietor of a prosperous blacksmith and implement business. Mrs. Hopper is likewise well known in her community, being one of the popular young ladies of Scott county. They will make their home in Jacksonville at 823 East College avenue.

The house was decorated in pink and white carnations and following the marriage a luncheon was served. The bride's gown was of white satin, pearl trimmings and bodice of pink brocade satin. She carried a bouquet of pink and white roses.

Both young people are most favorably known in Jacksonville. The bride is the daughter of Mr. and Mrs. William Raedner and is a graduate of the high school, Brown's Business college and formerly a student in the musical department of the Woman's college. Ayers, Inc., and is now secretary of the firm. The bride until recently was also employed by the Ayers firm. Mr. Kuykendall is a well known member of the Knights of Pythias and the Order of Elks.

Although the wedding was unannounced, the young people were the recipients of many handsome presents. After a short wedding trip to St. Louis and other western points, they will be at home to their friends at 357 East State street.

Among the out-of-town guests present were Mrs. Louis F. Kuykendall and daughter, Miss Sada, of Dahlgren, mother and sister of the groom; Mr. and Mrs. F. G. Berngasser and daughter, Miss Mildred, of St. Louis, Mr. Berngasser being an uncle of the bride.

AMERICAN MANUFACTURES IN FOREIGN MARKETS.

Little Volume Just Issued Gives Surprising Facts About U. S. Trade.
Washington, June 4.—The department of commerce to day made public the following:

The little volume just issued by the Department of Commerce entitled "American Manufactures in Foreign Markets" is one that ought to be in the hands of every economist and in the files of every industrial association and chamber of commerce. It is the first time in which the facts respecting sales of American manufacturers abroad have been put into such condensed form as to make the growth of our foreign trade clearly visible both in totals and in details and over a long period of years. The facts themselves have been printed before, but they have never been printed in the way in which they now appear.

The facts are very wonderful. It is but the lifetime of a man from 1852 to 1912 but in that one man's life our sales of manufactures abroad of all kinds have grown from 47 millions yearly to 1,390 millions yearly. But even this misleads a little as to the correct inference to be drawn, for the figures just stated include manufacture foodstuffs, the ratio of increase has been even larger, for the foreign sales have jumped from 27 millions in 1852 to over 1,000 in 1912 and promises to be nearly or quite 1,200 millions in 1913.

While our total exports of manufactures including foodstuffs have increased 71 per cent during the last ten years, the increase during these same ten years in manufactures other than foodstuffs has been over 124 per cent, strange as it may seem to some, the greatest increase of all is in those manufactures which are fully finished, which have grown from 322 millions in 1902 to what will probably be over 750 millions for the full year of 1913, an increase of 133 per cent.

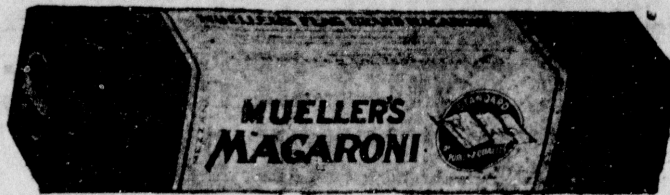

The pamphlet gives details of the principal articles which are included in the various groups as well as of the exports of each group to the different continents, and per centage tables from which the relation of all can be determined. Furthermore the exports to each continent are given by classes of articles over a period of years, and again these classes are subdivided so that the progress of particular industries in the export trade appears. For example, it is shown that the exports of machinery from the United States will, in the present fiscal year, probably exceed 200 millions, which compares with 75 millions a decade earlier.

A table of particular interest is that showing manufactures in the inter-national trade of the world, from which it appears that the percentage of increase in the export of manufactures from 1910 to 1912 is greater in the case of the United States than that of her chief industrial competitors. The United States now ranks third among the nations in export of manufactures.

No More Constipation

It's Me for Olive Tablets!

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and Calomel's old time enemy, discovered the formula of Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing laxative.

No grilling is the "keynote" of these little sugar-coated tablets. They cause the bowels and liver to act normal. They never force them to unnatural action.

Dr. Edwards' Olive Tablets are so easy to take that children do not regard them as "medicine" at all.

If you have a "dark brown mouth" now and then—a bad breath—a dull tired feeling—sick headache—torpid liver and constipated, you'll find quick sure and only pleasant results from one or two little Olive Tablets at bedtime. They're perfectly harmless.

Thousands take one every night just to keep right. Try them.

"Every little Olive Tablet has a movement all its own." 10c and 25c per box.

RAILROAD NOTES.

Alton Earnings Increase.
—Chicago & Alton earnings continue to show the same steady gain over last year. The statement for the third week of May, issued yesterday, shows that the road earned \$264,143, which is an increase of \$25,992 over the same week a year ago. Since the beginning of the fiscal year on July 1, the road has earned \$13,544,374, which is \$480,305 more than in the same period of the fiscal year preceding. It is presumed that the month of May will show an increase exceeding \$100,000, which will bring the year's gain in excess of a half million. As June is opening up strong, it is likely that the present month will show no falling off, and it is more than likely that the same ratio of increase will be maintained. For the first time in the history of the road, the coal mines along the line have continued in operation all through the spring and summer. None have shut down, and while some have operated upon half or three quarters' time, others have been working on full time. This has been a strong factor in keeping earnings above the normal.

ADVERTISING JACKSONVILLE.

The present time table of the Chicago & Alton railroad contains a full page devoted to Jacksonville, Illinois, "The Athens of the West." In addition to having a wealth of information regarding this city's educational and industrial activities it has two excellent views. As an advertising feature for the city it is very valuable as it will be distributed to patrons of the railroad in hundreds of cities and towns. The space was secured through the courtesy of the passenger traffic department of the railroad.

HAS SOME FINE CROPS.

M. J. Doolin of the Woodson neighborhood who was in the city Wednesday said he had just received a much appreciated gift from P. J. Crotty, some new potatoes raised on Mr. Crotty's farm. On account of the continued dry weather potatoes have not grown well this year but Mr. Crotty has some fine ones. The fact that Mr. Crotty also has 140 acres of corn up and plowed over once indicates pretty well what kind of a farmer he is.

LICENSED TO MARRY.

William Brogdon, Orleans; Minnie Stacy, Orleans.
Normal Kuykendall, Jacksonville; Myra Kathryn Readner, Jacksonville.

Miss Sue Sanders, who has been visiting Miss Ruth Brady of Grove street, returned Wednesday to her home in Louisville, Ky. Miss Sanders was a fellow teacher of Miss Brady in the School for the Deaf at Olatie, Kan., the past year.

WELCH'S

The Absolutely Pure Grape Juice

When some one asked Dr. Welch in Jacksonville the other day how many grapes were used in his factories he replied "We own 5,000 acres and use grapes from a total area of 40,000 acres."

No better proof could be given of the POPULARITY OF WELCH'S GRAPE JUICE. That popularity is founded on the fact that the processes used in its manufacture are the best known and the product is absolutely pure and of the highest standard of excellence.

Jacksonville will be visited June 17th or 18th by a trade extension excursion under the auspices of the Association of Commerce of Peoria. The parties on this excursion will include upwards of 100 wholesalers, jobbers, manufacturers, brokers and commission men who will endeavor to meet the business men of this city and will welcome anything in the way of a reception which may be given to facilitate this meeting. As the trip is purely a business one nothing will be expected in the way of entertainment. The party will arrive over the Wabash from Decatur and will leave on the C. & P. & St. L. for Peoria. They will be in uniform and will have with them a thirty-two piece band.

PROMINENT IN GOLF.

The Pacific Coast Golf and Out Door Sports magazine, published at Los Angeles, in a recent issue has a portrait of Mrs. Frank Griffith, formerly of this city. MR. ANDRAS FARMS VAST ACREAGE IN TWO COUNTIES

Says That Dry Weather Has Made Conditions Unsatisfactory But That This is a Local Situation—Believes That Better Methods and Alfalfa Growing Must Come.

Operating fourteen hundred acres of land through employees and 2500 to 3000 acres through tenants is the business that John C. Andras of Manchester conducts. These acres which Mr. Andras owns are located almost wholly in Morgan and Green Counties and although this land holder is now well past seventy years of age he is as young in body and stronger in mind than most men are at fifty. For that matter he is stronger in mind than the average man is at any age for while he has spent many years in hard physical work he has also devoted a vast amount of time to study. Ask J. C. Andras some question about science, agriculture, history, astronomy, politics and you will get the answer quickly and correctly for he has a vast fund of information gathered through the years and he is still a thorough student. His learning from books and from experience has been augmented by extensive travel and it was only a month or two since that he returned from a trip to the Panama canal zone.

Gets Facts On Agriculture.

Mr. Andras has for years been one of the three representatives of the department of agriculture in this state on whose opinion the government takes action on matters related to crops and weather. Each week his letters are filed with the Chicago department and the value that is placed on them is well shown by the fact that frequently they are cabled to London by grain men in Chicago.

Mr. Andras was in Jacksonville Wednesday and answered some questions a Journal reporter asked him.

"The crop conditions in this section of Illinois are not very satisfactory just now because of dry weather. The dry zone extends from Bloomington south almost to the southern part of Illinois and clear across the state into those adjoining. However, this area is limited when we consider the great grain producing territories of this country. From the west and the northwest come the most favorable reports and while conditions hereabouts are not satisfactory such cannot be the general condition. In the area I have described the oat crop is a failure and pastures are in bad shape. Much of the corn is not yet up and will not come up until there is rain. Where corn is up and has been plowed once it can stand a good deal of dry weather. The wheat hereabouts is in pretty good shape and I do not believe that the dry spell has injured it greatly. Clover is in excellent condition but most of it will have to be used to take the place of the short blue grass or timothy crop."

Farmers Short of Money.

"My business is such that I come into close relationship with the banks in a number of cities and towns of the counties hereabouts and I know it to be a fact that not for many years have the farmers been so short of money. This is true partially because of the failure of the wheat crop last year, partly from hog cholera and from the adverse fact that the corn crop last year fell far short of expectations. But certain it is that the farmers are feeling poor."

"I have just finished cutting twenty acres of alfalfa at Manchester and there are twenty more acres ready on a farm near Murrayville. There is no question but that we can grow this great crop here but I am not certain as to whether Morgan county farmers have arrived at the stage where they are willing to use the care which alfalfa needs to raise it means work and the farmers in time must come to the point where they realize that more must be produced by their acres."

Believes in Alfalfa.

"Why in Germany I have seen eighty and ninety bushels of wheat per acre produced on land which some of our farmers would call poor. Farmers must learn to use up all the waste space and to do more intensive farming. My alfalfa field this year will average seven tons to the acre in the three cuttings and it will be a profitable crop. There is no trouble about alfalfa and that is the first harvest comes at the time of corn plowing and the second when wheat is usually ready. In the first field that I planted in 1910, I applied five tons of ground limestone to each acre, used ground bone and also inoculated the soil with sweet clover seed. All this was after the most careful work in preparing the seed bed."

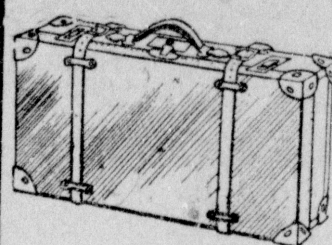

In making his observations for the department of agriculture Mr. Andras makes frequent trips over Illinois. For example he will go to Bloomington and then take a suburban which will carry him across to Decatur. Then he will go south to St. Louis and afterwards come up to Manchester. At other times his itineraries carry him into Iowa and Missouri.

A Human Match Factory

The body contains phosphorus sufficient to make 433,000 matches. Phosphorus is one of fourteen elements composing the body—divided among bones, flesh, nervous system and other organs. The perfect health of body requires a perfect balance of the elements. These elements come from the food we eat—the stomach extracts and distributes them.

But if stomach is deranged—the balance of health is destroyed and the blood does not carry the proper elements to the different organs, and there is blood trouble—nerve trouble—heart trouble. Pain is the hungry cry of starved organs. Put the liver, stomach and organs of digestion and nutrition into a condition of health. That is just what is done by

Remarkable Catarrh Cure That Gets Right into the Affected Parts and Stops Gatherings.

S. S. S. is a Wonder for the Eyes, Nose and Throat.

It is definitely known that catarrh can be cured by the simple process of inoculating the blood with antitoxin remedies that stop inflammatory conditions throughout the mucous linings of all the organs of the body. This is done with the famous Swift's S. S. S. It is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, through all the veins and arteries, and enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectively cleanse the system and thus put an end to all catarrhal pollution. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood-making materials to enter the intestines, combines with these food elements to enter the circulation and in less than an hour is at work throughout the body in the process of purification.

You will soon realize its wonderful influence by the absence of headache, a decided clearing of the air passages, a steadily improved nasal condition, and a sense of bodily relief that proves how completely catarrh often infests the entire system. You will find S. S. S. on sale at all drug stores at \$1.00 per bottle. It is a remarkable remedy for any and all blood affections, such as eczema, rash, lupus, tetter, psoriasis, boils, and all other diseased conditions of the blood. For special advice on any blood disease write in confidence to The Swift Specific Co., 137 Swift Bldg., Atlanta, Ga. Do not delay to get a bottle of S. S. S. of your druggist.

SCHOOL YEAR CLOSSES AT WOMAN'S COLLEGE

COMMENCEMENT EXERCISES WERE HELD WEDNESDAY AT MUSIC HALL.

Diplomas Granted to Twenty-Nine Graduates--W. A. Rankin Brings Enthusiasm With Offer For \$10,000 For Additional Endowment Fund--Dr. Nicholson in Address Glorified Truth As Basis of Character.

Illinois Woman's college has closed its sixty-seventh year with the commencement exercises of Wednesday. The year has marked the notable achievement of providing for all of the college indebtedness and for a clear endowment of \$100,000. Diplomas were granted to twenty-nine graduates and the commencement address was delivered by Dr. Thomas Nicholson secretary of the board of education of the M. E. church. A great deal of interest attached to the announcement made by W. A. Rankin of Onarga that he would give the last \$10,000 of a fund of \$100,000 additional endowment for the college in a somewhat picturesque speech. Mr. Rankin described the college as just starting for its best work and Dr. Harker as having just arrived at that point in his career when he can really do great things.

Miss Gillett presented the candidates for diplomas in the school of home economics and the candidate for the degree of bachelor of science in home economics; Miss Kidder presented the candidates for diplomas from the school of expression and Miss Weaver presented the candidates for the bachelor of arts degree.

In giving the diplomas Dr. Harker spoke of Miss Powell who has been through all the classes of the college from the primary department up and who was granted a de-

gree two years ago. He also mentioned Miss Helen Moore who was granted two diplomas yesterday.

On account of his weakened physical condition President Harker did not make an extended annual statement. However, he expressed his great gratitude to the people of Jacksonville and elsewhere for the aid given in the campaign. He referred to the substantial assistance given by Dr. Nicholson, Dr. Harker and the board of education of the church and mentioned the splendid offer made by Mr. Rankin. In speaking of changes in faculty President Harker said that with the going of Miss Weaver into work elsewhere that the college was losing one who had been in large degree responsible for the prosperity of the college during his term of office. He announced that Miss Parsons would be head of the department of expression the coming year and that Miss Ailsie Goodrick had been secured to give a course in public music.

The Order of Exercises.
The formal order of exercises for the morning was as follows, the audience assembling in Music hall. Dr. T. J. Pitner, president of the board of trustees presided:

Exalted Plain Virtues.

Dr. Nicholson took as his theme "Some Products and Byproducts of Education." It was an address which clearly evidenced the bitterness of the spirit of the speaker. He emphasized the great power and strength in character building of the home virtues and glorified the doing of little things "God" he said "has no small jobs" meaning that the greatest results are often dependent upon the seemingly smallest things. Truth and truthfulness were convincingly shown to be the real basis upon which men and nations grow and prosper. Only a few paragraphs can be here presented of this strong, helpful, courage inspiring, yet simple and straightforward address:

Much has been made in recent years of the value of by-products. In the total they have sometimes become more valuable than the main products.

We have been accustomed to think of the college as giving men certain things called culture. This included the discipline and mastery of one's powers acquired by certain mental gymnastics. Art and its treasures are lost upon many people until they have been taught appreciation through proper methods of viewing a picture. The same is true of appreciation in music. No culture has developed new appreciation. It has developed added power. There is an old story about Milo of Croton learning to lift an ox by lifting a calf each day and developing his muscle with the growth of the ox.

A large part of farm culture depends upon the elimination of weeds and foreign products and upon the proper stirring of the soil. So culture aids in eliminating coarse and useless habits and substituting the finer tastes and appreciations. It

also gives new inspirations and new motives. It stirs the soil of the soul. In addition to the discipline of the intellect there is the establishment of principles and the regulation of the moral and social powers. We wish today to call attention to what I may call some "by-products," which are of as great, and in some ways even greater, value than these oft-exploited products.

Virtue of Truthfulness.

1. Take for instance the inspiration to the telling of the simple truth, the homely virtue of truthfulness. The college training should in every way conduce to this. What food and air are to the body, truth is to the soul. It is the basis of honor and strength and of all true action. Telling the exact truth has always been regarded as a cardinal virtue. The foundations of society depend upon it. Perjury has always been looked upon as one of the darkest sins and has been heavily punished. Falsehood in its very nature is disintegrating and is doomed to failure. Truth is coherent, creative, enlarging. Truth alone can finally fix the right relations of man to man, of white to black, of man to woman, of capital to labor, of employer to employee, of parent to child, of greed to virtue, of morals to opinion, of morals and religion to men, and of God to men.

How manifold are the departures from this exact truthfulness. We have had "the business lie," the social prevarication, the professional deception. Bismarck is reported once to have said that such was the condition of diplomacy in Europe that if he wished to deceive a man he told him the exact truth. Statesmen like our own John Hay have been leaders in changing this deplorable condition. We must come to the point where in business life, yea means yea, and nay means nay. In all social life society must be made independent. It is a noteworthy advance in our political life that a man who cannot be depended upon to keep his word or his pledges is put out of public service. The demand that political parties when in power shall live up to their pre-election programs and promises is wholesome. Not only should this element extend to business and social relations but it should permeate our literature. How hard history has been perverted. How hard the history of our civil war current in north and south. College professors in not a few instances have been compelled to undergo criticism little short of persecution for their independent and unpopular treatment of civil war history. A similar thing was true respecting our relation to England after the war of 1812. Certain histories of the Lutheran Reformation have been current in times past which were most pernicious perversions of facts. The historian has a great obligation to society to tell the truth, the whole truth, and nothing but the truth.

The Truth in Art.

So in art. An artist painted Napoleon crossing the Alps. He presented him seated on a fine, white horse, which proudly stepped along with head erect and with dilated nostrils. The soldiers were clothed in bright uniforms and their muskets and cannon shone and glittered as on dress parade. Napoleon saw the picture and was indignant. He said: "It does not tell the truth. The fact was I sat on a mule and the soldiers' uniforms, cannon and musketry were soiled, worn and broken. Altogether we presented a most deplorable conditions." The fact is that Napoleon could not have crossed the Alps in such a dress parade fashion. It shows what notions we frequently get of things in general. Men who cross Alps do it through great struggle and unenvied toil and sacrifice. And it gives young people a wrong view of the realities of life if the truth be not so presented.

RAILROADS RESIST PAYMENT OF CERTAIN TAXES

Wabash and Alton Maintain Road District Taxes Are Unjustly Levied Against Them--Wabash Objects to City Taxes Too.

Tax cases are now occupying the attention of Judge Brockhouse in the circuit court. The Wabash and Alton roads are resisting the payment of certain taxes levied against their Morgan county property. The Wabash objects to paying a road tax of \$35.65, levied in district seven and of \$28.55 levied in district eight.

The Alton objected to the following payments, district seven \$82.47; district eight, \$3.81; district nine \$180.11; district ten, \$109.43; district eleven, \$112.79. All of the objections were sustained except in the case of the Alton in district eleven where the figures were cut to \$11.23.

The basis for the arguments the railroads make is that the law allows the levying of tax of thirty cents for ordinary expenses in a road district and twelve cents additional for extraordinary expenses such as the widening of roads provided such expense has actually occurred. The roads maintain that in the instances cited the excess taxes were levied without extraordinary expenses incurred and shown.

The Wabash also objects to the payment of the following Jacksonville taxes municipal, \$543.13; city bond, \$49.78; sinking fund \$67.89; park, \$45.26; library, \$45.26. The hearing is to be had Friday. The Wabash is presenting the same argument used last year, that the city appropriation ordinance had not been passed ten days prior to the passage of the tax levy ordinance.

WOMAN IN TERRIBLE STATE

Finds Help in Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and running down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

Feet So Sore Couldn't Walk Down Stairs—

TIZ Cured Her Quick.

Send at Once for Free Trial Package.

If you have sore feet, tired feet, swollen feet, lame feet, tender feet, smelly feet, corns, calluses or bunions, read what happened to Mrs. Crockett, of Jeffersonville, Tiz did it. Mr. Crockett says: "After the second treatment she walked downstairs one foot at a time. She had not been able to walk downstairs before in past five years; except by stepping down on each step with one foot at a time. This is remarkable. Send five more boxes." No matter what ails your feet or what under heaven you have used without getting relief, just use TIZ. It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudations which cause sore feet. Powders and other remedies merely clog up the pores. TIZ cleans them out and keeps them clean. You will feel better the first time it's used. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with it. If anyone offers you an imitation that is claimed to be "as good as TIZ," ask why, if it is just as good, they don't dare to come out and advertise it. Don't you be a victim—get the genuine TIZ for sale at all drug stores, department and general stores, 25c per box, or direct, if you wish. Money back if TIZ doesn't do all we say. SCHOOL YEAR CLOSES

AT WOMAN'S COLLEGE

(Continued from Page 7.)

"The heroes of the past were not all saints, nor the ages of the past all weakness. It is a significant fact that, with all our boast of the glory of modern ideals, the new court house in the city of New York which is to cost millions of dollars is a model and a very close reproduction of the old Roman Coliseum. Yet some people boast as if there had been no great achievement until our day. A similar principle applies in literature. What distorted views of life and society are given by many of the modern novels, and what a sinner in this regard is the public press of our day. There should be a popular uprising which shall demand that the reporter shall tell the truth, absolute and accurate. Similarly of the modern magazine. Some of the articles are little short of a disgrace to our civilization.

Now the college should beget the spirit of absolute truth as one of its best by-products. It has every opportunity to do so. The physical sciences are a constant inculcation of this principle. In chemistry combinations must be made in exact proportions. The laws of physics and of chemistry are exacting and unalterable. The principles of mathematics are similarly fixed. The calculations of astronomy allow of no variations, but when made with exactness how vast the results.

III. This leads us to call attention to the tremendous importance of little things. The largest part of the work of a detective is in making a study of trivial and inconspicuous circumstances, and in finding in them clues of facts. Notice the story in the current number of the New York Christian Advocate told by Assistant District Attorney Frank Moss in the Spielberg shooting case. The criminal seemed certain of going free when the district attorney's assistant settled the whole question by showing that the bullet hole indicated that the bullet had passed through the back part rather than the front part of his clothing. Similarly, physicians' diagnoses must take account of the most remote clues to the real disease. So the demands of modern science are for exactness.

Meaning of Small Things.
All this is suggestive but it strikes at a serious defect of modern education. Too much slovenly work is tolerated. There is too much impatience with the exacting feature. One of the "by-products" of education, if it is to be successful, must be this absolute faithfulness to truth and this exactness of service.

IV. This suggests the cultivation of insight. We must learn to see the meaning of small implications. What simple things gave Darwin and other scientists the clues to some of their great discoveries. (For illustrations see Hibben's "Inductive Logic"). The chance remark of an Irish maid about the cow-pox led to the discovery of vaccination as a preventive of small-pox. We know of Watt and the tea kettle lid, of Morse and the click of the lightning on the metal of a ship which led to the invention of the electric telegraph. All the world knows how Robert Browning found an old book at an Italian book-stall and saw in it all the manifoldness of meaning which he has brought out in "The Ring and the Book." So of little duties. We never know the real dignity of duty or the greatness of life until we see how the smallest details and services reach up to God's eternal throne. IV. And similarly with a spirit of optimism. This should always be one of the by-products of true education and it is fostered pre-eminently by the religious elements in education. The opinion that all things are divinely ordered for the best leads us to fight with the spirit of final triumph. When beset with circumstances which to the world would spell defeat, these things enable a man to move with the men of a conqueror. Take Paul as an illustration. See him in Romans II facing the heathen world. See the catalogue of horrible sins he makes out. He was not blind to the disintegrating and degrading sins of heathendom, and yet he talks about rejoicing in hope. Think of the persecutions to which he was subject, the defections of false friends, and yet observe his buoyant, expectant, triumphant spirit. "cast down but not destroyed, sorrowful but always rejoicing, persecuted but not forsaken," he never wavered in his faith in humanity, his faith in the ultimate triumph of goodness and of God. His abiding faith in the certain triumph of his cause made him an optimist. "None of these things move me." There will always be evil enough in life to dampen the ardor of the strongest

man or woman. Blessed be he who in training and in culture finds that faith in God, that faith in truth, that comfort in righteousness, that fellowship with Christ which begets this spirit of optimism.

And so we plead for these simple, homely, but regal virtues, truth, exactness, soberness, insight, reverence, optimism, as among great and exceeding valuable by-products of the truest culture and of genuine education.

Mr. Rankin's Offer.

When he had concluded Dr. Nicholson presented his friend, Mr. Rankin of Onarga. Mr. Rankin spoke only a few minutes but said a great deal and that to the effect that he thought President Harker now that the debt was cleared away and that the college had a \$100,000 of endowment had arrived where he could really accomplish something great. Mr. Rankin wanted to help by offering to give the last \$10,000 of another \$100,000 to place the college on a still more substantial footing. This announcement brought forth a great deal of enthusiastic applause.

President Harker in presenting the diplomas spoke of the number of graduates from the home economic department and said that it was significant because an increasing number of students was each year going out from the college especially prepared for homemaking. Referring to faculty changes President Harker said: "There will be a number of the members of the faculty go from us this year, nearly all of whom will take advanced work elsewhere. I cannot let this occasion pass without making recognition of the services of one who is to go, Miss Martha Weaver, dean of the faculty who has determined to engage in work in another state. Miss Weaver has been here during the greater part of my term of office and her service has been helpful, efficient, devoted, to the highest degree. So I wish to recognize what she has done and been and offer the prayer that God may bless her wherever she may go.

President's Statement.

"Because of the stress of the campaign it has not been possible for the faculty committee to give much attention to the positions to be filled but that matter will have immediate attention now. I can assure you, however, that the spirit of the college will be maintained in securing the highest possible scholarship for the faculty, the best and most devoted of womanhood, teachers recognizing the highest ideals in their work. I want to express my deep appreciation to each and all of the faculty for the service given the past year. Miss Parsons who has been the efficient assistant in the department of expression has been appointed the head of the department. Miss Ailsie Goodrick has been secured to give a course in public school music and Miss Josephine Ross, a graduate for this year has been named as assistant in the home economics department. I want to thank all citizens for the help given the past year and great is the debt I owe to you girls. When I have come home discouraged sometimes, new energy and life has come to me from contact with your spirit and enthusiasm. I am sure you will be interested in knowing that for this coming year the new literary societies will have halls of their own. And now I want to give special thanks to Dr. Nicholson for the strong aid given by him and by Dr. Hancher and through them by the board of education. Without such aid the campaign would not have succeeded. And then I want to thank Mr. Rankin for his aid and encouragement and for the generous offer he has made to us."

After the benediction the annual reception was given in the parlors of the college and at 12:30 o'clock a luncheon was served for trustees, faculty, students and friends.

MISS MARTHA WEAVER AN APPRECIATION.
At a session of the board of trustees of Illinois Woman's College the following appreciation of Miss Martha Weaver was presented by Mrs. Belle Short Lambert and was adopted by unanimous vote.

"In accepting the resignation of Miss Weaver from her position in the faculty the board of trustees of Illinois Woman's College wish to express the deep appreciation which is felt for her services during the years of her association with the college, first as preceptress and during the last seven years as dean. Especially helpful has been her co-operation in all that tended for the advancement of the college to higher standards and in her relation to the student body where her judgment and her tactful direction has been an invaluable influence. With sincere well wishes we commend Miss Weaver to the institution in which she accepts similar positions."

HAVE GIVEN LIBERALLY.

Mr. Rankin of Onarga proved himself a real friend of Illinois Woman's college Wednesday when he offered to give \$10,000 on a hundred thousand of additional endowment. Mr. Rankin had heard much of the college but had not seen it until Tuesday. He was shown about the property and through the various departments, became familiar with the spirit and atmosphere of the institution and then gave it as his opinion, "the half has never been told." Mr. Rankin is a keen business man and confessed that he was unwilling to put money into any enterprise unless convinced that there would be good returns. Not only his pledge to the college but the fact that his judgment approves it is a great thing for the institution. The authorities and friends of the college have heard of Mr. Rankin's pledge with great appreciation and thankfulness.

Their feeling for him is akin to the feeling for that loyal alumna who, without permitting her name to be known, has given \$10,000 to the college. The announcement of this fact at the alumnae reunion caused the greatest enthusiasm and inspired the members of the association with new zeal and fervor for their alma mater.

HAS ALEXANDER FOUND THE SAME?

The Answer is Found in the Straight-forward Statement of an Alexander Resident.

We have been reading week after week in the local press of Jacksonville citizens who have been rid of distressing kidney and bladder troubles by Doan's Kidney Pills, and we have often wondered whether the same high opinion of this medicine is to be found in our neighboring towns. This frank and earnest statement by a well-known and respected resident of Alexander will set this doubt at rest.

John William Anlabaugh, farmer Alexander, Ill., says: "About two years ago I took several boxes of Doan's Kidney Pills and will say that they did me more good than all the doctors I had experimented with. I have been bothered very little with my back since I used Doan's Kidney Pills."

MISS YOKUM A JUNE BRIDE.

New York, June 4.—At one of the most brilliant weddings New York has seen this season Miss Bessie Yokum, daughter of Mr. and Mrs. Benjamin F. Yokum, this afternoon became the bride of Francis R. Larkin, son of Mr. and Mrs. John Larkin of this city. The ceremony was performed in the Fifth Avenue Presbyterian church and was followed by a large reception at the home of the bride's parents in East Sixty-seventh street.

The bride of today has been prominent in New York society since she made her debut about three years ago. She is fond of outdoor sport, rides a great deal and is an excellent shot. Her father, Benjamin F. Yokum, is one of the leading railroad executives of the country. He is a Texan by birth and is a former president of the Santa Fe. For some years he has been chairman of the directors of the St. Louis & San Francisco railroad and of the Chicago & Eastern Illinois railroad.

Francis R. Larkin, the bridegroom, belongs to one of New York's prominent families. He graduated from Princeton university two years ago and has since been engaged in business in this city.

THE BRILLIANT STARS OF JUNE.

By the end of June, Mars, Venus, Saturn and Jupiter will all be morning stars, but Foley's Honey and Tar Compound is at all times the "Star" medicine for coughs, colds, croup and whooping cough. A cold in June is as apt to develop into bronchitis or pneumonia as at any other time, but not if Foley's Honey and Tar Compound is taken. It will surely head off the cold, and heal the inflamed membranes. The genuine is in a yellow package. City Drug Co.—J. A. Obermeyer.

THE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasite germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing. When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

The End of the Quest

A marvelous photoplay story that begins in Italy, with Rosa and Pietro happy in anticipation of their coming marriage. The scene shifts to New York where Rosa and Giuseppe, an Americanized countryman have flown. Pietro is in pursuit, but finds the problem of locating Rosa in New York not an easy one. They meet later, after Giuseppe has deserted Rosa. From the effects of ill-treatment she dies and her child is adopted by Pietro. Years afterward Pietro and Giuseppe meet face to face, and when the former would have revenge, the little girl intercedes. SPEED LAWS TO BE ENFORCED

Police Will Prosecute Owners of Autos and Motorcycles Who Violate Speed and Lamp Regulations.

According to a recent proclamation by Mayor Davis the speed laws and the regulations regarding the carrying of lamps are to be rigidly enforced. Owners of automobiles and motorcycles would do well to give attention to the regulations herewith given as ignorance of the law will do no good when one is brought to court.

The speed law provides that "No person shall drive a motor vehicle upon any public highway in this state at a speed greater than what is reasonable and proper." The limit for the business section is ten miles per hour and for the more closely built residence portions, fifteen miles. In the suburbs of the city a driver may attain the speed of twenty miles an hour without breaking the law and in the country he may drive at a rate of twenty-five miles. When turning corners beyond which the driver cannot see the limit is six miles per hour. Violators of this section of the law are liable to a fine of \$200.

A minimum fine of \$10 and a maximum of \$100 is prescribed for those who disregard the law regarding lights. Motorcycles are required to show one light and motor vehicles three, two in front and one behind, so arranged as to show the number plate. The front lights shall be white and visible at a distance of 200 feet in the direction to which the motor vehicle or motorcycle is going and the tail light on automobiles shall be red. The number plate shall be firmly fixed and so lighted as to be visible at a distance of 150 feet.

MEREDOSIA W. C.

T. U. CONVENTION.
The possibilities of the woman with the vote and some of the newer aspects of education were among the themes discussed Wednesday at the county W. C. T. U. convention at Meredosia. "The Legal Status of the Women of Illinois," by the state president, Miss Helen Hood, was a highly instructive paper presented in the morning. The two other numbers on the forenoon program bore on the subject of the place of woman in the government. They were, "Fifteen Laws Which Need Woman's Vote," led by Mrs. Rynders, and "Our Possibilities and Our Needs," led by the local presidents. In the afternoon educational topics were principally discussed. Mrs. W. I. Brown of this city gave a report on "The Public School." Moving pictures as a means of education were discussed by Miss Hood and "Why Girls go Wrong" by Dr. Neville of Meredosia. Wednesday evening a program of music was given and an address of much power by Miss Hood concluded the program.

Wm. Morris, a resident of Florence, Oregon, says: "For the last fourteen years my kidneys and bladder incapacitated me for all work. About eight months ago I began using Foley Kidney Pills and they have done what other medicines failed to do, and now I am doing and feeling fine. I heartily recommend Foley Kidney Pills. PROGRAM FOR CHAUTAUQUA RAPIDLY NEARING COMPLETION

Plans Are Being Made For Big Booster Trips Through County Advertising Educational Festival.

Plans for the big educational festival which is to be held in this city August 22 to 31 are rapidly nearing completion and it is expected to have the program ready for publication by July 1. Dr. Carl E. Black, chairman of the program committee, expects to call a meeting of that body soon and Mr. Shaw will probably be here for the session.

While a contract has not been finally acted upon it is expected that Bishop Quayle will be one of the lecturers and will probably be here the first Saturday. The Jeffries concert band has been engaged for eight days and the Innis band of New York will appear here one day during the chautauqua.

It is planned to have a number of booster trips throughout the county, advertising the chautauqua and giving the people an idea of the attractions that will be here at that time. The tentative plan includes taking the band and having some short talks made on subjects of interest to farmers. It is also planned to have another speaker follow the others and give a brief address on an agricultural topic.

BURNSTEIN PLEADS GUILTY.

State Journal: The first conviction on a charge of white slavery in this city was secured in the local court yesterday when Benjamin Burnstein, proprietor of a saloon at 130 North Seventh street, pleaded guilty to the charge preferred against him, and was sentenced to serve six months in the Peoria work house and pay a fine of \$500.

Burnstein was charged with having brought Mrs. Effie Truck to this city from St. Louis to become an inmate of his house located over the saloon in this city, after the woman had been ordered out of the city by the local police. The evidence was that one week after the woman had been ordered from the city, Burnstein sent her money and railroad fare to return to this city, and urged her to come before fair week.

Mrs. Truck is married and it was through her husband that the facts of the case became known. Her husband came to this city to persuade his wife to return to their home in St. Louis and engaged in an argument and quarrel with Burnstein. It was through this quarrel that the arrests were made and the evidence against Burnstein secured by the federal authorities.

Miss Ida Cornelia Braun Becomes the Bride of Mr. George C. Guthrie—Will Spend Several Weeks in West.

The marriage of Mr. George Guthrie and Miss Ida Cornelia Braun was solemnized Wednesday morning at 11:30 o'clock at the home of the bride's mother, Mrs. Frances Braun 349 Caldwell street, Rev. Howard D. French, pastor of State Street Presbyterian church officiating. A company of forty friends, most of them immediate relatives witnessed the ceremony.

The Braun home was prettily decorated for the occasion, red roses being used in the drawing room, a delicate shade of yellow in the dining room and in the parlor, pink roses, peonies, smilax and ferns were artistically arranged. The guests were received by Mrs. Braun and her daughter Miss Annette Braun.

The wedding party entered while the bridal chorus from Lohengrin was played by Mrs. E. S. Pike, a niece of the bride. Master William Edward Pike and Little Frances Jean Braun, lead the way and they were followed by Little Carolyn Braun, as ring bearer. The groom has long been associated with the business life of Jacksonville and is accounted one of the leading merchants, being a member of the firm of Johnson, Hackett and Guthrie.

Mr. and Mrs. Guthrie left over the afternoon Wabash train for the west. They will visit the Grand canyon, Los Angeles, where Mr. Guthrie has two sisters residing, and their itinerary will take them to Seattle, Washington, where Mrs. Guthrie's sister resides, Mrs. Libbie Martin.
